## OBJECTIVE

Highly detail-oriented full-stack developer skilled in front-end and back-end technologies and deployment. Committed to continuous learning, I stay up-to-date with the latest technology trends.

## EXPERIENCE

### Dono Consulting, IND— *Full stack developer*

SEP 2023 - PRESENT

- Developed and maintained two internal projects (skilling.ai and hr.math) leveraging modern frameworks and tools, including Next.js, Redis, Fastapi, Celery, Tailwind CSS, and TypeScript, enhancing functionality and scalability.
- Conducted comprehensive testing and debugging to ensure reliability, performance, and adherence to high-quality code standards.
- Created technical documentation and training materials for major clients, simplifying complex development processes and best practices.

## PROJECTS

### [Edukatel](#) — *Next.js, FastAPI, Shadcn, PostgreSQL*

An Edtech platform enhanced with generative AI is designed to connect students and teachers securely. Edukatel leverages blockchain to ensure data security and integrity, while generative AI personalizes learning interactions, enhancing user engagement and educational outcomes.

### [Boltly](#) — *Next.js, Express, Bun, ShadCN, Docker, Turborepo*

A modern app builder inspired by Bolt.new, designed to create a professional app for mobile seamlessly. Boltly features a responsive UI, a scalable backend with Express and Bun workers, and an optimized monorepo architecture using Turborepo. Docker ensures a containerized environment for easy deployment and scalability.
